Health Insurance Marketplace Impact

What is the Oregon Health Insurance Marketplace?

The Oregon Health Insurance Marketplace helps people get coverage when they do not qualify for the Oregon Health Plan and do not get health insurance through their job.

What we do:

- Serve as the state-level partner to HealthCare.gov
- Work with insurance companies, agents, community partners, health care providers, and other stakeholders to help people get the coverage that is right for them and their families
- Help ensure that health plans sold to Oregonians on HealthCare.gov are compliant with current law
- Connect people to free, local enrollment assistance
- Raise awareness among consumers about health insurance options available in Oregon

Who may qualify?

Oregonians may qualify for a subsidy through HealthCare.gov if they meet income guidelines and are not offered other affordable coverage through their employer, Medicaid, Medicare, or the Department of Veterans Affairs.

Enrollment assistance throughout Oregon

The Marketplace works with a wide net of more than **1,800** licensed insurance agents and community partner organizations to provide free in-person assistance to Oregonians applying through HealthCare.gov.
