VA Health Care

va.gov/health-care

Overview

- Health care provided by United States Department of Veterans Affairs (VA) medical facilities.
- May be used in conjunction with other health insurance or as standalone coverage.
- Enrollment can be terminated and reinstated.
- Medical care also available outside of VA system through the Veteran's Choice Program.

Eligibility

- Available to those who were separated under any condition other than dishonorable from active military service after at least two years, and those reservists who completed the full period for which they were called or ordered to active duty.
- Veterans can apply for VA health care at any time by visiting va.gov/healthbenefits/enroll, calling 877-222-VETS (8387), visiting a local VA health care facility, or making an appointment to see a County Veteran Service Office at go.usa.gov/xmfvd.

Cost

- There are no monthly premiums. However, depending on which priority a veteran is assigned, a veteran could be billed co-pays. See rates on the VA website.
- In order for the VA to determine a priority group, veterans must complete a financial means assessment when applying to determine if they are eligible for free or reduced-cost care. Service-connected conditions are treated free of charge.

The VA also provides health insurance coverage through CHAMPVA: go.usa.gov/xNM2C. This can be stand alone coverage or used with other insurance and has no annual fees or monthly premiums.

Cost

- Pricing of plan tiers (Platinum, Gold, Silver, Bronze) is based on the level of out-of-pocket costs for the consumer.
- Based on income, subsidies may be available as a tax credit or reduced monthly premiums, as well as cost sharing to help reduce out-of-pocket medical costs.
